

# Associate Traffic Engineer

We are currently seeking an Associate Traffic Engineer to join our Traffic & Transportation Department. We are looking for someone who is interested and has knowledge of traffic and active transportation and is looking for an opportunity to use skills in support of that interest. The Associate Traffic Engineer will work independently and efficiently on multiple projects to meet tight deadlines, work as part of the team and provide support to the team. If you love engineering and you are looking for a career where the work you do makes a difference to your community at large, WEBB is the place for you.

## Responsibilities

Additional responsibilities of this position include, but are not limited to:

- Assist in transportation planning and transportation operation analysis
- Preparation of traffic impact studies, Vehicle Miles Travel (VMT) analysis, and transportation demand management plans
- Assist with complete street planning, operations, and design
- Prepare bicycle and pedestrian plans
- Prepare grant applications

## Requirements

- Bachelor of Science Degree in Civil Engineering or Planning
- Three (3) or more years of experience as a Civil or Transportation Engineer in a consulting environment or public entity
- Working knowledge of engineering principles and techniques, HCM, MUTCD, CEQA, NEPA
- Exhibits initiative and the ability to work with little supervision
- Ability to manage competing priorities and multiple simultaneous projects, if necessary
- General understanding of MS Excel, Word, AutoCAD, Civil 3D, HCS, PTV Vistro, Synchro/SimTraffic or similar programs

Preferred Skills:

- Professional license or certification (PE, TE, or AICP)
- Active participation in industry-relevant professional associations and committees
- Good interpersonal, written and verbal communication skills
- Exhibits accuracy, attention to detail and strong organizational skills

## Benefits

Empowered by development opportunities, competitive compensation, outstanding benefits, and a supportive network of professionals in our industry, we strive to give you everything you need to succeed in your career. Our associates have consistently designed and then redesigned what's possible in the world of planning and civil engineering and, with your help, we can continue to develop our region for years to come.
